

## #347: Brake Check

Alas, we didn't get the story behind this one, so we are scratching our heads. We're pretty sure you can't forget that you have to back in, so that leaves us with what? He pulled up facing forward, hopped out to check things out, and forgot to put it in park?

Can't quite figure out what he's doing now, either, although there's a taut line to the trailer so that things don't get even worse.

All in all, quite a puzzle. Trucks don't float, that's for sure.
